COMPANY PROFILE

ABOUT US

Sakagraha is an integrated construction solution based in Lombok. We believe that a building is more than just a structure, it is a harmony of functionality and aesthetics. With our Design & Build spirit, we manage every phase of the project from the initial sketch to the final nail

CONTRACTOR | DESIGN & BUILD

Vision

Becoming the most trusted construction partner in West Nusa Tenggara, driven by design innovation and sustainable building quality.

Mission

Providing a One-Stop Solution for time and cost efficiency, Ensuring construction precision with the highest safety standards, Delivering adaptive designs that reflect Lombok's local character.

Why Choose Us ?

- Deeply rooted in Lombok, we possess extensive knowledge of the local terrain, climate-adaptive materials, and regional logistics, ensuring efficient project delivery in any location across NTB.
- We eliminate the gap between architects and contractors. By managing both design and execution under one roof, we ensure the final result perfectly matches the initial vision with zero miscommunication.
- Time is our priority. Our dedicated project managers monitor every milestone rigorously to ensure that your project is delivered on schedule, every single time.
- Whether it's a luxury villa or a public bridge, we adhere to strict structural engineering standards and safety protocols to guarantee long-term durability and structural integrity.
